

The Ngoyi Family

Building on Faith 2007

Madeline Ngoyi lives in a small one bedroom apartment in Euless. The only working heat/air vent in her apartment is in her bedroom. It is layered in mold and needs to be replaced. She hopes that eventually all of her vents will be repaired. However, from the time of move in maintenance has demonstrated a history of slow repairs. Madeleine has been employed by PSI Group for two years. She immigrated from the Congo as a political asylee in 2004. She has four children remaining in the Congo and hopes to be reunited with them soon. She also wants to improve her job outlook. "I hope to have the opportunity to go back to school and get a better education to have a better job. The Habitat program is the best way for me to become a homeowner. Habitat gives hope to those who have never owned a

Madeleine Ngoyi

home. I am glad I have been given the opportunity to give my kids a good, secure environment where they can grow and study. I want to participate and make our community a better place for everyone."

Habitat for Humanity, Madeleine Ngoyi and First United Methodist Church Hurst will build this home as part of Building on Faith, Fall 2007.

"Habitat gives hope to those who have never owned a home. I want to participate and make our community a better place for everyone."
